**Re: Top 10 downloaded article in 2018**

---

Dear Cory,

Thank you for your important contributions to the *Canadian Journal of Anesthesia* (CJA) in 2018. This letter is to congratulate you on your article entitled "When and how should we cluster and cross over: methodological and ethical issues" being one of our top 10 downloaded papers in 2018. No doubt, your work and that of your colleagues has contributed to the success of the CJA - including over 1.2 million downloads in 2018, and a growing Impact Factor that was 3.4 in 2017.

Once again, thank you for your important contribution, and we look forward to seeing other articles from you and your colleagues.

Yours sincerely,

Hilary P. Grocott, MD  
Editor-in-Chief
